Canada Music Week

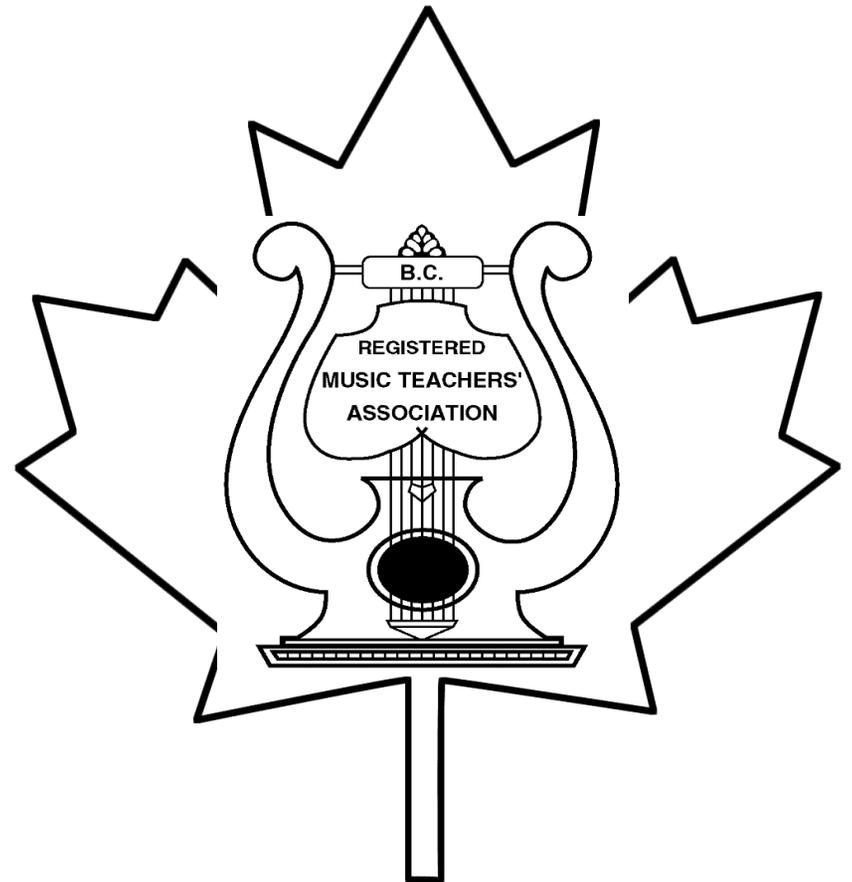

Celebration Recital

One of our South Fraser R.M.T. members, Eva Law, introduces us to the composer, Frank Levin, who has several compositions in this program.

Frank Levin is a composer and visual artist who was born and received his early musical training in Ottawa. Later he studied Composition at the San Francisco Conservatory of Music and subsequently became a private piano teacher, a profession he practiced for over thirty years. He has over three dozen single publications, many designed for students, two books and two CDs. He has lived in Vancouver for the last twelve years where he continues to compose and give workshops.

To learn more about Frank, visit his web site at www.relaxationx3.com .

A very special note of appreciation to our teachers who prepared and encouraged the performers we hear tonight; to the parents for their daily guidance; and our student who make it all worthwhile.
